**DETAILED ACTION**

***Election/Restrictions***

1. This application is in condition for allowance except for the presence of claims 1, 3-11, and 13-30 directed to species non-elected without traverse. Accordingly, claims 1, 3-11, 13-30 been cancelled.

**EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

As per the discussion above, the application has been amended as follows:

Please cancel claims 1, 3-11, and 13-30.

***Allowable Subject Matter***

3. The following is an examiner's statement of reasons for allowance:  
  
Prior art of record fails to reasonable teach or suggest outputting the combination of a main screen synchronized by using a PCR, PLL, STC, for decoding, and displaying a subsidiary screen out of synchronization without using a PCR for the channel displayed on the subsidiary screen, as recited in claim 2.

Art Unit: 2623

***Conclusion***

1. This application is in condition for allowance except for the following formal matters:

The abstract of the disclosure is objected to because of legal phraseology and undue length. The abstract recites claim limitations, but does not clearly convey the nature of the invention.

Further, the title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Correction is required. See MPEP § 608.01(b).

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
